Orthotic Documentation Requirements
AFOs, KAFOs, LSOs, TLSOs

RE:

DOB:

DOS:

Insurances requires in the DOCTOR'S CLINICAL NOTES that it states the following:

- What type of orthosis the patient needs (AFO, KAFO, LSO, TLSO)
- Why they need it (for drop foot, instability, etc.)
- How it will help with their daily activities (maintain their home, be able to drive, also safety issues if patient is a fall risk, etc.)
- Length of time the patient will need the orthosis (lifetime, 6 months, 9 months)
- Clinicals need to be electronically signed or physically signed by the physician.
- Please AMEND current clinical notes if this documentation is not stated.

This documentation is REQUIRED for the insurance to cover the cost of any and all orthotics for the patient. Otherwise it will become the patient responsibility.

We appreciate your help in this matter.
